Brunno Marques

Senior Software Engineer | Flutter, Front-End Development
Vila Velha, Espírito Santo, Brazil

Summary

I have been a Flutter specialist for 5 years and have over 8 years of experience in the field. I have participated in the development of apps for multi-million users during my time at MGM Resorts and Farmácias App. Furthermore, I share my experience in communities, especially Flutter Brasil, with the most influential people in technology from the country.

My expertise in Flutter and Dart is deep and covers the entire development lifecycle, from architecture, state management, components, design system, performance and much more. In addition, I have a solid foundation in front-end and back-end technologies, which allows me to lead projects successfully throughout the entire lifecycle, from concept to implementation.

Experience

Cognizant

Senior Software Engineer

May 2025 - Present (11 months)

- Collaborated with MGM Rewards as a Senior Software Engineer, focusing on complex UI and app architecture.
- Implemented Clean Architecture and SOLID principles to enhance code quality and maintainability.
- Developed and maintained a robust design system while ensuring accessibility standards were met.
- Utilized CI/CD practices and conducted unit, golden, and integration tests to ensure software reliability.

B M FRANCA TECNOLOGIA

Flutter Developer

September 2022 - Present (3 years 7 months)

Vila Velha, Espírito Santo, Brasil

- Developed high-quality Flutter applications as an independent contractor, focusing on scalable codebases.
- Collaborated with clients to understand their app requirements and deliver tailored solutions.
- Ensured optimal performance and user experience through rigorous testing and debugging.

Farmácias APP | Delivery | By GrupoSC

Flutter Developer - Pleno

March 2024 - Present (2 years 1 month)

Vila Olímpia, São Paulo - Brazil

- Developed the mobile version of the Farmácias App, ensuring high code quality and robust error handling.
- Collaborated with a diverse team, including industry leaders like Toshi Ossada, to enhance product functionality.
- Contributed to achieving over 2 million users and a 97% error-free rate, showcasing commitment to excellence.

Flutter Brasil

Cofundador da Comunidade

January 2024 - Present (2 years 3 months)

Brazil

Creation of one of the largest Flutter developer communities in Brazil, focused on learning, networking, and exchanging experiences.

- Organization of meetups and events to promote the use of Flutter in real-world projects.
- Production and sharing of educational and practical content about Flutter and Dart.
- Moderation of forums and discussion groups, ensuring a collaborative and inclusive environment for members.
- Strengthening partnerships with companies and experts to foster the use of Flutter technology.

MGM Resorts International

Senior Software Engineer

June 2025 - December 2025 (7 months)

Althero

Flutter Developer

June 2024 - October 2025 (1 year 5 months)

Rouen, Normandie

RécUp

Full-stack Developer

September 2023 - October 2025 (2 years 2 months)

Rouen, Normandie

PupzDoBrasil®

Flutter Developer

November 2023 - March 2024 (5 months)

- Led the migration of Pupz's core application from Flutter 1 to Flutter 3, refactoring over 40,000 lines of code.
- Implemented Null Safety and utilized Flutter Modular for a micro Frontends architecture.
- Employed MobX and Triple for effective state management, adhering to SOLID, MVC, and Clean Architecture principles.
- Developed multi-platform applications for both Android and iOS, enhancing user experience and functionality.

Dentista Organizado

Flutter Developer

August 2023 - November 2023 (4 months)

- Enhanced the Dentista Organizado application through modular design and efficient state management.
- Refactored source code by removing GetX and implementing Flutter Modular for improved route management.
- Leveraged native Flutter state management techniques, including ValueNotifier and ChangeNotifier.
- Conducted comprehensive UI/UX refactoring in line with Material Design 3 standards.

COM TECNOLOGIA LTDA

Flutter Developer

September 2021 - December 2022 (1 year 4 months)

Castanhal, Pará, Brazil

- Led the development of a Sales Force application using Flutter, overseeing the project from conception to implementation.
- Designed intuitive UI/UX and implemented state management using SetState to enhance user experience.

- Executed an Offline-First approach with SQLite, managing over 50 tables for robust offline functionality.

Sea Telecom

IT Assostent

February 2021 - July 2021 (6 months)

Castanhal, Pará, Brazil

- Maintained the database and managed customer data for SEA Telecom, enhancing operational efficiency.
- Developed scripts and utilities in Java to automate repetitive data management tasks.
- Utilized JavaScript for data entry and collection from ERP forms, improving productivity.
- Demonstrated a strong commitment to transitioning into a software development role.

Exímio Solutions Jr

PHP Web Developer

October 2019 - May 2020 (8 months)

Castanhal, Pará, Brazil

- Developed two websites utilizing PHP, HTML, CSS, JavaScript, MySQL, and Apache, enhancing my technical skills.
- Led a team of interns, providing mentorship and fostering a collaborative learning environment.
- Contributed to the growth of Exímio Solutions Jr by applying self-taught programming skills in a professional setting.

Education

Universidade do Estado do Pará - UEPA

Tecnologia de Análise e Desenvolvimento de Sistemas, IT · (June 2019 - June 2025)
